Twisted (feat. Pharrell Williams)

Usher

Lemme put my shades on
Everybody come around
You got it twisted
Oh, now tell me why you wanna do me that way
You got it twisted
Ooohhh
You introduced it cause you know i dont play
You had me looking stupid
But i let it go that way
That booty substitute it
Guess that made it ok
You had me stuck on stupid
But i let it go that way
Im suffering from delusion
I should put myslef away
All the time and money i spent
Cant believe what im in
It aint right, i
If i come back can you promise
Its gon be you and me and the sea?
Whatever, no?
You got it twisted
Oh, now tell me why you wanna do me that way
You got it twisted
Ooohhh
You introduced it cause you know i dont play
You had me looking stupid
But i let it go that way
You booty substitute it
Guess that made it ok
You had me stuck on stupid
But i let it go that way
Im suffering from delusion
I should put myself away
How come everytime my crew around
Just so happens you're around you got to show out
It aint right
And all that flinging hair, glossing your lips
Shaking your hips everytime you go out, oh
You got it twisted
Oh, now tell me why you wanna do me that way
You got it twisted

Ooohhh
You introduced it cause you know i dont play
You had me looking stupid
But i let it go that way
You booty substitute it
Guess that made it ok
You had me stuck on stupid
But i let it go that way
Im suffering from delusion
I should put myself away
Hey all the girls, all the girls
Make sure your skirt aint too tight
What we doin, is gon have a lot of fun,
Me and you
Tonight, come on
You gotta twist it to the left,
And twist it to the right
Twist it like you love it
Twist that thing all night
Twist it to the left
And twist it to the right
Twist it like you love it
Twist that thing all night
She felt so alive
Said her home life was so dead
20 of us on vespers and mopeds
Oh there she go now, oh can i hold that?
What you talk about, go ahead for head
Told her home girl now its getting worse and
And i was tryin to hook her up with usher
So i get her that ... channel lipstick
She said how d'you get more out
Twist it
You got it twisted
Oh, now tell me why you wanna do me that way
You got it twisted
Ooohhh
You introduced it cause you know i dont play
You had me looking stupid
But i let it go that way
You booty substitute it
Guess that made it ok
You had me stuck on stupid
But i let it go that way
Im suffering from delusion
I should put myself away
Oh yeah i see, keep twisting baby, she aint ever good enough
