

Worlds Apart (feat. Kerli)

Seven Lions

I keep reaching
But you're not reaching back
You're not reaching back Trying to get in, find you through the cracks I guess I'm trying to say
It hurts to feel this far Like million miles away
When next to me, next to me you are And if you're sitting right here,
Then why are we worlds apart?
Why are we worlds apart?
If you're so near,
Why do you feel this far?
Why are we worlds apart?
Oh
We're not that different, you know.
I play among the stars and then fall so low
I trying to make sense as I go
'Cause nothing, 'cause nothing, 'cause nothing is ever just so. Why are we worlds apart? Why
are we?
Why are we worlds apart? I guess I'm trying to say It hurts to feel this far Like million miles
away
When next to me, next to me you are.
And if you're sitting right here,
Why are we worlds apart Oh, if you're so near,
Why do you feel this far?
Why are we worlds apart? Why are we worlds apart? Why are we?
Why are we worlds apart?
