

Rescue Me

Marshmello & A Day to Remember

Never been saved, but I've never come closer
Another year down and another year older
A million fresh starts, what I needed, it was closure, yeah I lost who I was, but I found my
composure, yeah When I found you, I found me
Nothing around, far as I could see
You were the current that carried me
When I found you, I found me
Lines in the sand, only you can read
My S.O.S., yeah, you rescued me
Rescue me When I found you, I found me
Lines in the sand, only you can read
My S.O.S., yeah, you rescued me
Call it high-strung, started upping my dosage
We're way too young, to be feeling this hopeless
You're my light in this endless ocean, yeah
Feeling alive, even just for this moment, yeah When I found you, I found me
Nothing around, far as I could see
You were the current that carried me
When I found you, I found me
Lines in the sand, only you can read
My S.O.S., yeah, you rescued me
Rescue me When I found you, I found me
Lines in the sand, only you can read
My S.O.S., yeah, you rescued me You got my S.O.S. (S.O.S.)
You got my S.O.S. (S.O.S.)
When I found you, I found me
Nothing around, far as I could see
You were the current that carried me
When I found you, I found me
Lines in the sand, only you can read
My S.O.S., yeah, you rescued me
Rescue me When I found you, I found me
Lines in the sand, only you can read
My S.O.S., yeah, you rescued me
Rescue me
