

# Only One

## Sigala & Digital Farm Animals

Flashing light, won't let me go  
Your ultralight beam staring at my soul  
Your galaxy, my shooting star  
A supernova aiming straight for my heart  
No one does it better than, better than, better than  
No, no one does it better, better, better  
No one does it better than, better than, better than  
No, no one does it better, better, better  
Baby you, ooh, ooh, ooh  
Got me feeling like, feeling like the only one  
You, ooh, ooh, ooh  
Got me feeling like, feeling like the only one  
You, ooh, ooh, ooh  
Got me feeling like, feeling like the only one  
You, ooh, ooh, ooh  
Got me feeling like, feeling like the only one  
Feeling like the only one  
She super fly, she wanna go  
Take me to Jupiter and show me your home  
We're moving fast, but time is slow  
I don't care wanna let everybody know  
No one does it better than, better than, better than  
No, no one does it better, better, better  
No one does it better than, better than, better than  
No, no one does it better, better, better  
Baby you, ooh, ooh, ooh  
Got me feeling like, feeling like the only one  
You, ooh, ooh, ooh  
Got me feeling like, feeling like the only one  
You, you, you, you  
Baby you, you, you, you  
Baby you, ooh, ooh, ooh  
Got me feeling like, feeling like the only one  
You, ooh, ooh, ooh  
Got me feeling like  
Baby you, ooh, ooh, ooh  
Got me feeling like, feeling like the only one  
You, ooh, ooh, ooh  
Got me feeling like, feeling like the only one  
Baby you, ooh, ooh, ooh  
Got me feeling like, feeling like the only one
