

# Villa

Niykee Heaton

I know a place where no one flows  
Grims in, sits back and sip a little  
Don't know, I can't wait, the time goes  
Stay high, lights low  
You'd have to see to believe me  
Grissed off, float like the Riviera  
Go high, we're living easy  
Follow my lead  
Don't need to talk about it,  
'Cause if you are about it  
And if you really wanna roll, roll  
Show me what you worth  
We can make it work,  
Come with me let's go!  
Step in, sucking and feeling  
One taste and you're fainting  
You don't have to leave, yeah  
Back trees, sound of the palm leaves  
Yeah baby I promise that What happens here it stays with the VILLA  
With the VILLA  
What happens here it stays with the VILLA  
With the VILLA  
What happens here it stays with the VILLA Woke up we both end in the bath tub  
No drink, clink clink and in the middle  
Someone give me a back rub  
A little to the left, left, that's good  
Who the fuck brought a python  
That's chill, just don't come any closer  
You've been smoking to my song, all day, and now you're gone  
Don't need to talk about it,  
'Cause if you are about it  
And if you really wanna roll, roll  
Show me what you worth  
We can make it work  
Come with me let's go! Step in, sucking and feeling  
One taste and you're fainting  
You don't have to leave, yeah  
Back trees, sound of the palm leaves  
Yeah baby I promise that What happens here it stays with the VILLA  
With the VILLA  
What happens here it stays with the VILLA  
With the VILLA

What happens here it stays with the VILLA Stay the night, you're never leaving once you  
stepped inside, yeah  
Stay the night, I got that something that will change your life, yeah  
At the motherfucking villa!  
With the VILLA  
What happens here it stays with the VILLA  
With the VILLA  
What happens here it stays with the VILLA  
With the VILLA  
What happens here it stays with the VILLA
