

Nirvana

Blood On the Dance Floor

This is redemption for my people in a song

Here's the key. This is what you need

Gotta open your eyes. Your heart will never tell you lies

3 cheers now for the hate to demise

A place or a state where we can be free

A place we live in harmony

Oblivious to hatred is what you will find my friend

This is a message to end your suffering

[Chorus]

Nirvana, elevate me higher

Marijuana, to end the suffering

Nirvana, awaken your inner soul

Marijuana, let it go you have control

This is an ending to all your hate in a form

That will say let yourself awake

I hold my lovers hand

Because it means more to me than

Some random strangers hate

I don't know what you do to me

But you make me feel so happy

You gotta rid your mind of

These awful bad perceptions

If you plan on finding self-acceptation

[Chorus]

Nirvana, elevate me higher

Marijuana, to end the suffering

Nirvana, awaken your inner soul

Marijuana, let it go you have control

Have no fear you're behind the wheel

Love will set you free

Nirvana is your only freedom

I will follow you wherever you may go

To the end of the world I'm forever yours

I will follow you wherever you may go

To the end of the world I'm forever yours

[Chorus]

Nirvana, elevate me higher

Marijuana, to end the suffering
Nirvana, awaken your inner soul
Marijuana, let it go you have control

Have no fear Nirvana!
You're behind the wheel love will
Set you free Nirvana!
Nirvana is your only freedom
