

# Outrage

## Sister Sin

Cool calm and all collected  
Try hide that hate from here  
Let go pass by unaffected  
For what reason you choose to never expose  
Resolute in denying emotions  
It's there weather like it or not  
Lash out hun, make it atrocious  
One shot, show for what you lack  
Spill your guts now, don't hold it back  
C'mon, bring it on and let me feel it  
I want that teenage rampage, mayhem and outrage  
C'mon, scream it out till I believe it  
We need that front page outrage, alright  
Make it bleed between the lines  
Cold, cold calm and disconnected  
Fine line between heaven and hell  
Today determines tomorrow  
Ya all get just what I say we said  
Let go give in to the moment  
Lash out in a violent display  
My time, your time to go when  
Rise up, show for what you got  
Ready to burn then rip it out  
C'mon, bring it on and let me feel it  
I want that teenage rampage, mayhem and outrage  
C'mon, scream it out till I believe it  
We need that front page outrage alright  
Make it bleed between the lines
