

# Slow Dance

Keri Hilson

Come here Baby, sometimes I just wanna dance with you.  
Hold me like this!  
Just rock with me. Put your arms around me boy,  
I got something to show you, tonight.  
And you know I need your undivided attention baby.  
whoaaa  
Aint no other girl can rock your world like I  
SoRewind,  
Make this moment last forever babe.  
Feels like your body is calling me.  
But I don't  
I dont want to come on to strong,  
But something happens when we slow dance.  
Something happens when we slow dance.  
(when we slow dance)  
I try to be lady like  
But i got you here tonight  
But something happens when we slow dance  
(when we slow dance)  
Talking with my fingertips,  
yeah, yeah  
I got so much to say babe  
words just get in the way baby (the way baby)  
Lets see can you read my hips, read between the lines (read yeah)  
as we bump and grind just makes it better from behind  
So one more time  
Rewind,  
Make this moment last forever babe.  
Your body is calling me eeeeeee  
I dont want to come on to strong,  
But something happens when we slow dance.  
Something happens when we slow dance.  
I try to be lady like  
But i got you here tonight  
But something happens when we slow danceGot you in my element.  
Time to represent who you with.  
The whole world is staring at the both of us  
And Im giving you all my love x2This one for the dance floor, strictly for the dance floor x4I  
dont want to come on to strong,  
But something happens when we slow dance.  
Something happens when we slow dance.  
I try to be lady like

But i got you here tonight  
But something happens when we slow dance
