

Big City Train

No Doubt

Can you hear that whistle
Loud clackety clack
But it's calling to me
The station is where it's at
It's coming again now
Chuggin' down that track
Just check your records
Got all my bags packed You'll always find me waiting for that train to come through
Come get me take me To the land where my dreams come true
You'll always find me waiting for that train to come through
Come get me take me
To the land where my dreams come true
The time i'll board that train
It won't be long
Check the label on my baggage
Destination in my song
I'll talk to the conductor, ooh
I've saved up my fare
Yakety-yak for a while(huh, huh...)
Choo choo!
Choo chooo-hoo! You'll always find me waiting for that train to come through
Come get me, take me,
To the land where dreams come true
A-always find me waiting for that train to come...
Come get me,
Come take me
You'll always find me waiting for that train to come through
I said come get me, take me to the land
Where the dreams come true and then...
Oh i'm waiting
Oh i'm waiting
Come get me, come get me, to the land where my dreams come...Smokes down???
Then smash it down(???...)Hurry grab my luggage
Hurry grab my bags
It seems the locomotive
Has been taken another track
A penny brought on by mischief
A penny, form of cash
Has been brought up to the railway
We are destined to be a smash!
A smashWoah!!>>guitar solo>>You will always find me waiting for that train to come through
Come get me, take me,

To the land where your dreams come true
You'll always find me waiting for that train to come

A-na-na-na-na-na-na-oh-wh-wh-woahYou'll always find me waiting for that train to come
