## Boney James

Shine, baby, shine  
Keep shining

Shine on me, your smile  
Show so brightly  
You shine on me, I get a taste of heaven now  
I just love it when you shine on me

Day breaks, I see your face  
Nothing but is common place  
Think, I think I caught a case  
Of your love

So fresh like morning dew  
Honey, I'm in love with you  
Got that special something on  
I can't get enough

Can't wait till each day begins  
So I can see your face again  
Wish you could feel just how I feel  
Then you know it was real, I just love it when you shine on me

Shine on me, your smile  
Show so brightly  
You shine on me, I get a taste of heaven now  
I just love it when you shine on me

How can I let you know  
Boy, I long to hold you so  
Can't you see it in my face  
Baby, it's love

Some day you'll be with me  
Make me wait impatiently  
Close my eyes and make a wish  
My dream to be free

Can't wait till each day begins  
So I can see your face again

Wish you could feel just how I feel  
Then you know it was real, I just love it when you shine on me

Shine on me, your smile  
Show so brightly  
You shine on me, I get a taste of heaven now  
I just love it when you shine on me

Keep shining

I get a taste of heaven now  
I just love it when you shine on me

Shine on me, your smile  
Show so brightly  
You shine on me, I get a taste of heaven now  
I just love it when you shine on me

Shine, baby, shine  
Keep shining, keep smiling  
Shine, baby, shine  
Keep shining, keep smiling

Keep on shining  
I love it when you shine on me

I love you  
You're all I really do, babe  
I love it when you shine on me  
So brightly, yes, so brightly  
Blinding me
