

# Winterbreak (Tiësto's Deep House Remix)

MUNA & Tiësto

You say you'd best get going, it's getting late  
And I say we don't know what comes that's on the way  
But the last time that we made love, you left in tears  
So this time you're wondering how to leave it here  
And I haven't seen you since last winter break  
And I know that I broke your heart  
But oh he's the smart one, oh, he's so intelligent  
You must know that I took it hard Oh, baby I think we both know  
This is a love that we won't get right  
Still if you said that you wanted  
I know I'll always have one more try  
Oh, baby, I think we both know  
This is a love that we won't get right  
Still if you said that you wanted  
I know I'll always have one more try  
You pull that face like here we go again  
So I pull a flask out the back of my jeans  
And then you take a pull  
And in my mind we're in my bed  
And I'm pulling  
Your sweater up over your head  
And I haven't seen you since last winter break  
And I know that you hate how that went  
But oh he's a smart one, oh, he's so intelligent  
You must know what's happening Oh, baby I think we both know  
This is a love that we won't get right  
Still if you said that you wanted  
I know I'll always have one more try  
Oh, baby, I think we both know  
This is a love that we won't get right  
Still if you said that you wanted  
I know I'll always have one more try  
Oh it's magnetic, isn't it?  
The sense of something underneath the surface  
When you're laying on thin ice  
Just a little bit masochistic  
Attentive to the lips as  
The parting of your lips, the ache in your eyes  
But I think I'm gonna kiss you All this while we both know  
This is a love that we won't get right  
Still if you said that you wanted  
I know I'll always have one more try

Oh, baby, I think we both know  
This is a love that we won't get right  
Still if you said that you wanted  
I know I'll always have one more try
