

Samantha

Hole

Samantha, you swore
You'd never turned that trick before
Keep waiting for a war
You'll never win, you'll lose again Watch her wrap her legs around this world
Can't take that gutter from the girl Samantha, you burned me out
Samantha, it's over now Samantha, your war
Was a lost cause before I came
Keep praying
Pray for the pretty things you won't get back Watch her wrap her legs around this world
Stab the gutter right out of that girl, that girl
Through villages of ether
My crucifixion comes
Will you sing my hallelujah?
Will you tell me when it's done? Look in my eyes
There's nothing there, goodbye
I wanted you out of my whole life
Goodnight and don't try to move People like you fuck people like me
In order to avoid agony
People like you fuck people like me
In order to avoid suffering People like you fuck people like me
Fuck, people like you fuck people like me
Fuck, people like you fuck people like me
Fuck, people like you fuck people like me
Fuck people like you
(Leave your money by the bed)
Fuck, people like me fuck people like you
(In the gutter where you live)
Fuck people like me And I throw it all away
And I throw it in your face
And if you were on fire
I would just throw kerosene
'Cause I love so much I hate
And I hate what you have seen in me, Samantha So you think that you could save him
And we know that someone died
Oh, an unkindness of ravens
And we know that Mary lied And through villages of ether
Oh, my crucifixion comes
Will you sing my hallelujah?
Will you tell me when it's done? People like you fuck people like me
In order to avoid agony
People like you fuck people like me
In order to avoid suffering People like you fuck people like me

Fuck, people like you fuck people like me
Fuck, people like you fuck people like me
Fuck, people like you fuck people like me
Fuck people like you
