

Tired of Dreaming (feat. Ne-Yo & Rick Ross)

Wale

(M-M-M-Maybach Music) Get out of my head, get into my bed
Come to me now, I'm tired of dreaming; imagine, baby
Ooh, get out of my head, get into my bed
Come to me now, I'm tired of dreaming; imagine, baby Fame has made me more foolish, uh
What would you do with all these lusty groupies? Uh
And I know that God has made me only human, uh
But I'd like to take the time to describe to y'all my favorite woman
Look... teeth, white and bright and still talk to me like we back home
And the weed? That's optional cause my only concern's that her head's strong
And her feet? Let's see; course you know I like them clean
And I can understand a little bruise, you've been running through a nigga's mind all damn week
And no, I won't OD, you'll get D, young as 19
I believe age is for math, all I need is chemistry, yeah
The shawty be the glory - until my dream real
And I like a good story, I bet she got a mean tail
Your little attitude, and the way you make your moves
Baby, it's just hella cute, baby...
Girl, I've been lookin' for you cause of the things we do
In my dreams, how I be makin' you scream; I wake up like... Get out of my head, get into my
bed
Come to me now, I'm tired of dreaming; imagine, baby
Ooh, get out of my head, get into my bed
Come to me now, I'm tired of dreaming; imagine, baby HUH! (Maybach Music)
When I look in your soul, all I see is the gold
Her beauty is blinding, she's in total control
Her emotions at peace, let's walk the shoreline
Statuesque as can be, we're spending more time
Sky-dweller moving counter-clockwise
A perfect 10, I'm watching you through God's eyes
Bonita Applebaum - my strawberry letter
Love Potion #9, this shit's a gifted era
If this is wrong, you my co-defendant
As we plead guilty to this life sentence
Choosy lovers - she my block goddess
I love the realist - rock solid
Your little attitude, and the way you make your moves
Baby, it's just hella cute, baby...
Girl, I've been lookin' for you cause of the things we do
In my dreams, how I be makin' you scream; I wake up like... Get out of my head, get into my
bed
Come to me now, I'm tired of dreaming; imagine, baby
Ooh, get out of my head, get into my bed

Come to me now, I'm tired of dreaming; imagine, baby(M-M-M-Maybach Music)
