

# What You Did (feat. Ella Mai)

## Mahalia

I know what you did  
Yeah I know, I know  
And now I wanna talk 'bout it And I know you don't  
I've been holding guard for so long, so long  
And I don't know where to start  
I don't know where to start now Tell me where you hide, where do you go?  
Tell me is she nice, does she know I know?  
Tell me why you lied, tell me why  
I don't know what you are  
I don't know what you are, no  
What you did, uh  
Yeah, you know I love you but I can't forgive it  
You could tell me stay but I have to go  
'Cause I would not expect someone to stay around  
If I let them down like this Oh it's funny how  
Right when I let my guard down you play around  
And no, not this time we can't hash it out  
It's too late for me to stay  
I wish all the things you say was what you put on your display, no I could of done without lies,  
lies  
And know the one I love is blind, blind  
This just don't feel right  
Ain't no more "we", ain't no more "you and me"  
What you did (What you did)  
Yeah, you know I love you but I can't forgive it (I can't forgive)  
You could tell me stay but I have to go (I gotta go)  
'Cause I would not expect someone to stay around  
If I let them down, oh What you did (What you did)  
Yeah, you know I love you but I can't forgive it  
You could tell me stay but I have to go  
'Cause I would not expect someone to stay around  
If I let them down Now you've become the reason I'm so down (down, down)  
Boy, I won't excuse ya, I don't wanna go down  
Do you know that you've been the reason I'm so low? (Low)  
So you tell me to stay here but you know that I won't  
'Cause I still can't believe what you did, no  
Yeah, you know I love you but I can't forgive it, babe  
You could tell me stay but I have to go 'cause  
I would not expect someone to stay around  
If I let them down, oh What you do (What you do)  
Yeah, you know I love you but I can't forgive it  
You could tell me stay but I have to go

'Cause I would not expect someone to stay around  
If I let them down, oh(Don't apologize, please)  
I would never, I would never do it babe, uh  
(Don't try to change my mind please)  
Don't try to change my mind  
Baby, me and you are done, me and you are done
