

The Good Times Are Killing Me

Modest Mouse

The good times
Yes
Release The good times The good times are killing me The good times are killing me
Here we go! Got dirt, got air, got water and I know you can carry on
Shrugged off, shortsighted, false excitement and oh what can I say?
Have one, have twenty more "one mores" and oh it does not relent The good times are killing
me Kick butt, buzz cut, dickheads who didn't like what I said
The good times are killing me
Jaws clenched tight, we talked all night, oh but what the hell did we say?
The good times are killing me
The good times are killing me
The good times are killing me Fed up with all that LSD
Need more sleep than coke or methamphetamines
Late nights with warm, warm whiskey
I guess the good times they were all just killing me
Got dirt, got air, got water and I know you can carry on
The good times are killing me
Enough hair of the dog to make myself an entire rug
The good times are killing me
Have one, have twenty more "one mores" and oh it does not relent
The good times are killing me
Shit kicker, city slickers who all wanted me dead
The good times are killing me
Get sucked in and stuck in late nights with more folks that I don't know
The good times are killing me ([The good times are killing me])
The good times are killing me
The good times are killing me ([The good times are killing me])
The good times are killing me
The good times are killing me ([The good times are killing me])
The good times are killing me
The good times are killing me ([The good times are killing me])
([The good times are killing me])
