

Antenna

Sonic Youth

my darling cruises the streets for pleasure
skyscrapers in the dead love dawn
throbbing blood mind selfless creature
forever yours and then she's gone
radios play nothing when she's far away
tv antenna nothing gone to waste
radio transmitting nowhere it falls away,
she's far away every corner creeping panic
freak lighting in her abstract mind
rubber stamps and dreams of cashflow
wild blood ecstatic crime
radios play nothing when she's far away
tv antenna rusting gone to waste
radio transmitting nowhere it falls away,
she's far away
every day I feel more like her
street magic in the burning dawn
out for blood my selfless lover
forever yours and then she's gone
radios play nothing when she's far away
tv antenna nothing gone to waste
radio transmitting nowhere it falls away,
she's far away
