

Say What You Want

Rosie Thomas

Say what you want to say
Play this game your way
It's over anyway
You didn't give it up for love

Take what you want to take
Take back the words you'll say
They never mattered anyway
You didn't give it up for love
No you didn't give, give it up for love

When I look through the photographs
And I see the smile on your face
I remember how you used to feel
And I see how much has changed

Say what you want to say
I'll carry on the same
Maybe you'll look back someday
You didn't give it up for love
No you didn't give, give it up for love

When I look through the photographs
And I see the smile on your face
I remember how you used to feel
And I see how much has changed

When I look through the photographs
And I see the smile on your face
I remember how you used to feel
And I see how much has changed

Say what you want to say
Play this game your way
You will know someday
You didn't give it up for love
No you didn't give, give it up for love
No you didn't give, give it up for love
