

# Like You Ain't Even Gone

## Florida Georgia Line

[Chorus]

I still go riding around town  
With the windows down and your feet up on my dash  
Got your rays on and my hat's back and we're feeling cool as cash  
The night is on, like you ain't even gone  
You go slidin' through the static trying to find that song you love  
Smoke rolling up and you showin' up like a dime piece in the dust  
You got me stoned, like you ain't even gone

[Verse 1]

Sunset, twilight, Friday night  
Round back, chill a dollar fifty miller high life  
Headband, peace sign, looking fly, shotgun bullet going straight through a street sign

[Pre-Chorus]

You had diamonds in your eyes when you were smiling  
Even pretty when you're cryin'  
If I said I wasn't missing you I'd be lyin'  
But the truth is, girl the truth is

[Chorus]

I still go riding around town  
With the windows down and your feet up on my dash  
Got your rays on and my hats back and we're feeling cool as cash  
The night is on (Another moonlight ride), like you ain't even gone  
You go sliding through the static trying to find that song you love  
Smoke rolling up and you showin' up like a dime piece in the dust  
You got me stoned (It still feels so right)  
Like you ain't even gone (Like you ain't even gone)  
Like you ain't even gone

[Verse 2]

Midnight calling me looking for trouble  
Slipping them should have beens in my ear  
Got me shooting down that girl's memory double  
That blue eyes, summer smoke, sunburn red smile  
Said you were leaving this town, got to runaway  
I watched you drive away, and girl you should have chased down

[Pre-Chorus]

Those diamonds in your eyes when you were smiling  
Even pretty when you're cryin'  
If I said I wasn't missing you I'd be lyin'  
'Cause the truth is, girl, the truth is

[Chorus]

I still go riding around town  
With the windows down and your feet up on my dash  
Got your rays on and my hat's back and we're feeling cool as cash  
The night is on (Another moonlight ride), like you ain't even gone  
You go sliding through the static trying to find that song you love  
Smoke rolling up and you showin' up like a dime piece in the dust  
You got me stoned (It still feels so right)  
Like you ain't even gone (Like you ain't even gone, gonee)  
You ain't even gone, gone, gone  
You ain't even gone, gone, gone

[Outro]

Sunset, twilight, Friday night  
Round back, chill a dollar fifty miller high life  
Headband, peace sign, looking fly, shotgun bullet going straight through a street sign  
Sunset, twilight, Friday night  
Round back, chill a dollar fifty miller high life  
Headband, peace sign, looking fly, shotgun bullet going straight through a street sign
