

The Soft Side of Love

Kem

We should move mountains
And dance amongst the stars
Hush all the madness
We should never be apart
Take time to tell me, that you care
I want your affections
And it's more than I can bare
I just love the sight of you
The soft side of love
This love that we share
The soft side of love
Ooh ooh ooh
Trust what your feeling
And know that it's right
I won't leave you stranded
I got plans to do you right girl
You are so understanding
Tender and pure
You're one hell of a woman
From now on I am yours and I mean it girl
The soft side of love
This love that we share
The soft side of love
Ooh ooh ooh
There will be sorrow
Tribulations to face
But there is rest for the weary
We can learn from our mistakes girl
Oh how I love thee
You are precious and sweet
And your touch is amazing
It affects me when I sleep
Oh the very thought of you
The soft side of love (girl)
This love that we share
The soft side of love
Ooh ooh ooh
And I mean it girl
The soft side of love
This love that we share

The love that we share
The soft side of love
Ooh ooh ooh
Oh the very thought of you
The soft side of love girl
This love that we share
This love that we share baby
The soft side of love
The love that we want
Ooh ooh ooh
It's your soft side
The soft side of love
This love that we share
The soft side of love
