

Calling You Out

Bad Luck 13 Riot Extravaganza

Where did all the words go?
If you find out let me know
My stage is like a warzone
Shout out gets 10 broken bones

On the stage is where we (13) get loose
Terrible's dying on a bloody noose
Through the shadow to my bloody stage
Your about to see a psycho rage

Fuck you and your shout out
Knock your teeth down your fucking mouth
Get your emo friends to pick you up
You're next on my death list
Get me drunk and watch the band rock

.....

Fuck shout outs, I'm calling you out
I'm calling out all those cops in the south side of chicago cause they had to step to the stage to
keep the bad luck from doin' what we do. And all those pussies down in maryland, who stepped
in the trail better beware
And all those motherfuckers from the LI ah man cause the band...and what about the hoes huh?
What about the hoes?
All these bitches are on me 'cause I fuck em in the ass and break thier nose. I'll take yer first
born put it all up in the child porn, cause thats the way the bad luck does it, slut!!
