

Claudia Lewis

M83

Alone, twenty millions years from my place.

A slide, on the starlight.

Watch out, a new planet right on my trail!

The space, oh oh it's mine!

Oh oh!

I'm lost, in an infinite night trip.

The sun, could make me blind.

I wish, I could bring a girl to my ship.

And fly, her hand in mine!

Oh oh!

Alone, twenty million years from my place

(Is the dream over?)

The space, oh oh it's mine!
