

# Not Enough Time (feat. Emma Hewitt)

## Cosmic Gate

With their wicked words  
They'll try to hold you down  
No this is not our fate  
The lives in which they are bound  
And there is something more  
We know it has to be found  
I know the world won't wait  
The tide is turning around

And there's not enough time  
There's not enough time  
And there's not enough time  
There's not enough time

With all their wicked words  
They'll never hold you down  
No this is not our fate  
The tide is turning around

And there's not enough time  
There's not enough time  
And there's not enough time  
There's not enough time

In the fallout of the wasted in the halflight  
I stand before you in the last dance of an old life  
Now the cool wind's blowing and we can't stay, but it's  
alright  
When the night is gone  
I will still be here

And there's not enough time  
There's not enough time  
And there's not enough time  
There's not enough time
