

# Glasshouse

## Hands Like Houses

[Verse 1]

A silver line, a disease on the horizon  
A whistling in the trees, it marches on  
It's like a tide, impatient and insincere  
A threat borne on the wind, it marches on

[Pre-Chorus]

A weight on the air, I feel it in the silence  
Take a second to listen  
The earth starts to shake, the sky begins to fall  
Can you hear it coming now?

[Chorus]

I was safe, I was brave  
Until the sky collapsed on me  
Can you hear the thunder in my chest?  
Can you feel how heavy lies the air?  
Let it fall, let it roar  
And let it all be swallowed by the storm  
Can you hear the thunder in my chest?  
Rain down on me, rain down on me

[Verse 2]

Slamming doors, I'm here but I'm trapped inside  
The darkest shades of grey roll through my head

[Pre-Chorus]

A weight on the air, I feel it in the silence  
Take a second to listen  
The earth starts to shake, the sky begins to fall  
Can you hear it coming down?

[Chorus]

I was safe, I was brave  
Until the sky collapsed on me  
Can you hear the thunder in my chest?  
Can you feel how heavy lies the air?  
Let it fall, let it roar  
And let it all be swallowed by the storm  
Can you hear the thunder in my chest?

Rain down on me, rain down on me

[Bridge]

I don't want to admit to myself  
This can't just be in my head!

[Chorus]

I was safe, I was brave  
Until the sky collapsed on me  
Can you hear the thunder in my chest?  
Can you feel how heavy lies the air?  
Let it fall, let it roar  
And let it all be swallowed by the storm  
Can you hear the thunder in my chest?  
Rain down on me, rain down on me
