

Make the Most

Noel Gourdin

We all
We all have our little differences and faults
Sometimes we don't see eye to eye
Then go for days and don't talk
But just imagine something happens to the ones we love
While we hold a silly grudge

Don't procrastinate
Shower the people you love with love
Make sure they know
With a kiss or a hug
Can't hesitate
To give it all in all
Pick up the phone and call
Don't go your whole life long
Without the joy
Of knowing you love someone
And then return the love 24

Make the most
Of the time you share
With that special someone
Let them know
How much you care
How much you care
Life is short
We don't even know
How much time we got
Make the most
Don't be afraid
To let it show

A guy
Who couldn't put aside his pride
To save his life
Sits alone at home by the phone
And it's no surprise
He'd once taken that woman for granted
And she got wise
You better open your eyes
And recognize

Don't procrastinate
Shower the people you love with love
Make sure they know
With a kiss or a hug
Can't hesitate
To give it all in all
Pick up the phone and call
Don't go your whole life long
Without the joy of knowing you love someone
And the return the love 24

Make the most of the time you share
Of the time you share
With that special someone
Let them know
How much you care
How
Life is short
So short
We don't even know
How could we know
Make the most
Don't be afraid
Let your feelings show

Something as simple as a smile
Could make the day worth while
If we could only be like a child
And remember to laugh sometimes
And not question our heart

Make the most
Of the time you share
You gotta let them know
Let them know
How much you care
Just how much you care
Life is short
We don't really know
We got...
Make the most
Don't be afraid
Let your feelings show

Make the most
Of the time your share
Let them know
How much you care
Oh life is short

We don't really know
Oh make the most
Don't be afraid
Let your feelings show
