

# Learned It from the Radio

Thomas Rhett

How to be proud of that town  
that ain't nobody heard of  
had a big dream 17  
someday how to grow up  
how to make dust fly  
out on a no named road  
I learned it from the radio  
how to wake up  
how to work tough  
how to roll up those sleeves  
how to throw down  
how to get loud  
what to put in that drink  
give the stars in the sky  
a little halo  
yea, I learned it from the radio  
If it wasn't for  
the speakers in the door  
telling me a truth I havent  
ever heard before  
I would had never kissed that girl  
Never known what to say  
I would had never known better  
i'll let her get away  
thank God for 4 wheel drive  
thank God for windows down  
and all the DJ's in all  
those little static towns  
how to live, how to love  
everything I needed to know  
I learned it from the radio  
What to say when you think  
that you found that girl  
who to call when shes gone  
and she wrecks your world  
how to get over it  
how let her go  
I learned it from the radio  
How to see it all  
from a front pourch  
and how to say it all  
just using 3 chords

and when to run  
when your young  
when to come back home  
I learned it from the radio  
If it wasn't for  
the speakers in the door  
telling me the truth  
I havent ever heard before  
I would had never kissed that girl  
Never known what to say  
I would had never known  
better I'd let her get away  
thank God for 4 wheel drive  
thank God for windows down  
and all the DJ's in all  
those little static towns  
How to live, How to love  
everything I need to know  
I learned it from the radio  
from the radio  
I learned it from the radio  
back to when we used to burn it  
turn it up up up up  
If it wasnt for the speakers in the door  
telling me a truth  
I havent ever heard before  
I never woulda kissed that girl  
Never known what to say  
I would had never known better  
I would had let her get away  
thank God for 4 wheel drive  
thank God for windows down  
and all the DJ's in all  
those little static towns  
How to live, How to love  
everything I need to know  
I learned it from the radio  
mhmm  
from the radio  
I learned it from the radio  
back to when we used to burn it up  
turn it up.
