

Whatcha Know 'Bout That

Morgan Wallen

[Verse 1]

Watcha know about thumping skeeters with your fingers
With a stringer full of keepers under thunderhead clouds?
Whatcha know about picking off a blackberry?
Little Cherry Skoal Dip make the swelling go down

[Pre-Chorus]

Mmm girl, lucky for you I'm a two lane tour guide
Mmm get your country boy heartbreaking certified

[Chorus]

Let's order up a couple longnecks
Maybe take a two step or two
Teach you how to yaw with a Southern drawl
Get you falling 'fore the night is through
And we'll park in it the boons
And catch a little moon tan
By the time you go back
And you'll be city girl, buzzin' over country boy loving
Tellin' everybody that you know whatchu know about that
Yeah, whatchu know about that?

[Verse 2]

Whatchu know about that Saturday summer
Heat deep creek creeping down around a bend
And whatchu know about taking off what you bought at the mall
Hang it all on a sycamore limb

[Pre-Chorus]

Mmm, we can get on out where the cowboy hats flow
Mmm, ay whatchu know about a hillbilly backstroke?

[Chorus]

Let's order up a couple longnecks
Maybe take a two step or two
Teach you how to yaw with a Southern drawl
Get you falling 'fore the night is through
And we'll park in it the boons
And catch a little moon tan
By the time you go back (if you go back)

And you'll be city girl, buzzin' over country boy loving
Tellin' everybody that you know whatchu know about that

[Bridge]

Sippin' on shiners, diners, sugar pies
Bobbers and cane poles
Kissing in the fireflies
Bet you gonna smile when you get back home
And that Nitty Gritty song comes on on your phone
'Cause thats my ringtone, ha
(You and me)
You and me, yeah

[Chorus]

Let's order up a couple longnecks
Maybe take a two step or two
Teach you how to yaw with a southern drawl
Get you falling 'fore the night is through
And we'll park in it the boons
And catch a little moon tan
By the time you go back
And you'll be city girl, buzzin' over country boy loving
Tellin' everybody that you know whatchu know about that
Yeah whatchu know about that?
(You and me)
Yeah whatchu know about that?
