

Affection

Cigarettes After Sex

I know that you say
I get mean when I'm drinking, but
Then again
Sometimes I get really sweet, so What does it mean?
If I tell you to go fuck yourself
Or if I say
That you're beautiful to me It's affection always
You're gonna see it someday
My attention
For you
Even if it's not what you need
Sometimes we talk
All night long, we don't shut up
And when it's late We'll say we're still wide awake so
We love to talk
About how you'll come up to visit me And we'll rent a car
And we'll drive upstate
It's affection always You're gonna see it someday
My attention's on you
Even if it's not what you need I think of you
I want you too
I'd fall for you
I think of you
I want you too
I'd fall for you
I think of you
I want you too
I'd fall for you
I think of you
I want you too
I'd fall for you
It's affection always
It's affection always
