

Move On

AJ Mitchell

[Intro]

Mmm

Oh, yeah

[Verse 1]

Tell me where your heart is?

Tell me when it started beatin' too slow?

Where did you go?

Play me like a classic, tell me this ain't magic

I know you know, oh, oh, oh

[Pre-Chorus]

I thought we were fine

I thought you were mine

Thought the only thing you take from me was all my time

I thought we were cool (So cool)

Love can be so cruel (So cruel)

Now I know there's only one thing left that I can do, oh

[Chorus]

Baby, I don't really ever wanna move on

Come and meet me outside with your shoes on

Let me take you to the place that we fell in love, love

Baby, we can run it back to the old days

Maybe then we'll go back to our old ways

Let me take you to the place that we fell in love, love

I've been tryin', tryin' to live my life

But I'd be lyin' if I said it felt right 'cause

Baby, I don't really ever wanna move on

Come and meet me outside with your shoes on

Let me take you to the place that we fell in love, love

[Verse 2]

I'm starting to lose my mind, my sanity is yours to find

Like, wait, hey, how did we get here? (How did we get here?)

You know it can't end like that

With you just hittin' send like that

Like, wait, hey, how did we get here?

[Pre-Chorus]

I thought we were fine
I thought you were mine (Mine)
Thought the only thing you take from me was all my time (All my time)
I thought we were cool (So cool)
Love can be so cruel (So cruel)
Now I know there's only one thing left that I can do, oh

[Chorus]

Baby, I don't really ever wanna move on
Come and meet me outside with your shoes on
Let me take you to the place that we fell in love, love
Baby, we can run it back to the old days
Maybe then we'll go back to our old ways
Let me take you to the place that we fell in love, love
I've been tryin' (Trying), trying to live my life
But I'd be lyin' (Lying) if I said it felt right 'cause
Baby, I don't really ever wanna move on
Come and meet me outside with your shoes on
Let me take you to the place that we fell in love, love
(I don't wanna move on)
