

My First Radio

Cole Swindell

[Verse 1]

Baby why you acting so surprised
Looking at me like I just read your mind
Well girl I know what you wanna hear
And what goes good with kisses and cold beer
You're smiling at me like you're ready to rock this
Well I got this

[Chorus]

This ain't my first radio
No this ain't my first turn it up
Burn it up under the moon
Small town, ride around arm around you
Girl you know I know, which one will get you
Singing along with your hand out the window
Slow it down dance on the side of a dirt road
Uh-Oh where did the night go don't you know
This ain't my first radio
Radio

[Verse 2]

Yea I know when to keep it down low and when to turn it to ten
And when you're smiling like that you know I gotta play it again
(Oh my God this is my song)
This one right here is gonna get you closer
Head on my shoulder before it's even over
I got an all night sound track, you just kick back
Baby this ain't my first radio

[Chorus]

No this ain't my first turn it up
Burn it up under the moon
Small town, ride around arm around you
Girl you know I know, which one will get you
Singing along with your hand out the window
Slow it down dance on the side of a dirt road
Uh-Oh where did the night go don't you know
This ain't my first night

[Bridge]

With you out hear like this
Parked in the window stained sunrise kiss
Me being the DJ, you being all mine and
I damn sure hope it ain't the last time
No girl it won't be the last time
This ain't my first radio

[Chorus]

No this ain't my first turn it up
Burn it up under the moon
Small town, ride around arm around you
Girl you know I know, which one will get you
Singing along with your hand out the window
Slow it down dance on the side of a dirt road
Uh-Oh where did the night go don't you know
This ain't my first radio
