## Jhené Aiko

[Verse 1]
Out of place, out of space and time
Wide awake, out of papers
I am not okay, I am out my mind
Outer space, that's where I been going
To a place where, place nobody knows
Floating, at a pace where now you see me
And now you don't

[Hook]
I don't feel the fear of falling
I wanna fly
If it all goes well then I will
But what if I don't
I'll be right where I was before
But I'm not alone
You say take my hand
And we go and we go
And I hope we don't overdose
Cause we don't, no we don't ever know
When we have had enough

[Verse 2]
Wait, now my thoughts so cloudy
And my heart's so crowded with pain
I am frustrated like my soul's been taken away
Broken promise of everything that I thought you were
Thought you said, that this would never hurt
That's what it did, that is all

[Hook]
I do not feel the fear of falling
Thought I could fly
It didn't go well but oh well
What do you know
I'm right back where I was before
But I'm not alone
You said take my hand
And we go and we go
And I hope we don't overdose
Cause we don't no we don't ever know
When we have ever had enough

[Bridge/Verse 3]
Imma be so cold, need some more
I never felt these things before
Imma think for sure, please don't go
How could you not need me, no more?
I don't get it
You're the only thing that I love
You're the only thing that I want
You're the only reason, the only reason

[Hook/Outro]
I do not feel the fear of falling
I wanna fly
If all goes well then I will
But what if I don't
I'll be right where I was before
You're all that I know
