

# Burning

## Gorgon City & EVAN GIIA

I don't come for way too long  
My heart is blue under the surface  
Feel like I'm forever enough  
One step away from the furnace I'm craving for that heat  
I want that chemistry melting more than me  
I know it's all I need  
Might said I rule the time  
Searching for the massive start the fire I want that burning, burning, burning  
Burning, burning, burning  
A burning kinda love  
Burning, burning, burning  
Where I can't get enough  
I'm addicted to your oath  
Your heart puts rise in my pressure  
Desire swing s back and forth  
Oh every pain there is pleasure I'm craving for that heat  
I want that chemistry melting more than me  
I know it's all I need  
Might said I rule the time  
Searching for the massive start the fire I want that burning, burning, burning  
Burning, burning, burning  
A burning kinda love  
It's burning, burning, burning  
Where I can't get enough I've been thinking you could be  
The one to start the fire in me  
I need that burning, burning, burning  
That burning kinda love  
I want that burning, burning, burning  
Burning, burning, burning  
A burning kinda love  
It's burning, burning, burning  
Where I can't get enough  
Burning, burning, burning  
Burning, burning, burning  
A burning kinda love  
It's burning, burning, burning  
Where I can't get enough
