

# Arrival

## Japanese Wallpaper

Into the corner, all of the soft drink  
You can't take the shadow back  
Still so far from good  
On edge of the hell and  
But we were still standing, losing our senses  
Be gone with storm This last arrival, may be my best  
See you uncover it, cover it again  
This last arrival, may be my best  
See you uncover it, cover it again
