

# Forever to Go

Chase Rice

I can still see that dress you were wearin'  
With those yellow wildflowers  
I can still smell that vanilla in your hair, when  
I was spinnin' you around  
We just met and I knew then  
But I couldn't say it out light  
So we just swayed while the music played  
Kinda like we're doin' right now Another year down  
And, baby, somehow  
Our song never gets old  
The honeymoon phase  
And butterflies fade  
But I'll never let you go  
We were just kids  
Stealin' a kiss  
And it feels like forever ago  
But I love you more than yesterday  
We still got forever to go  
(Forever to go, still got forever to go  
Forever to go, still got forever to go)  
I remember that moon hangin' over the water  
At Fort Lauderdale beach  
Corona lime and Tortuga lights  
In our lawnchair seats  
Bandana in your hair and your hand in the pocket  
Of my worn-out jeans  
That summer night did somethin' right  
It's still hard to believe Another year down  
And, baby, somehow  
Our song never gets old  
The honeymoon phase  
And butterflies fade  
But I'll never let you go  
We were just kids  
Stealin' a kiss  
And it feels like forever ago  
But I love you more than yesterday  
We still got forever to go  
Forever to go, still got forever to go  
Forever to go, still got forever to go  
Another sunrise, another slow kiss  
Another memory of you and me, I won't forget Another year down

And, baby, somehow  
Our song never gets old  
The honeymoon phase  
And butterflies fade  
But I'll never let you go  
We were just kids  
Stealin' a kiss  
And it feels like forever ago  
But I love you more than yesterday  
We still got forever to go  
Yeah, I love you more than yesterday  
We still got... forever to go
