

Brought To You By Beer

Cole Swindell

[Verse 1]

There's a sun set settin' on another good night
Little can't wait, tailgate party on ice
Chillin' in the back of a four-wheel drive
'Bout to pop a top, mama let it rock
Some are gonna wanna fight, some are gonna wanna dance
Some are gonna wanna carry 'round one in each hand
Yeah, we all have a 'get a little crazy' plan
That we break out when we go out

[Chorus]

Everybody's workin' out, doing twelve ounce curls
Boys buzzin', hung up on the country girls
Fishin' for the line that'll kick her heart into gear
Hey brother, need another over here
Got the Kid Rock good time playlist on
All the worries in the world, they 'bout to be gone
Some drunk dude's in the crowd yelling
"Let's get weird, y'all"
Brought to you by beer
That's right
It's all brought to you by beer

[Verse 2]

A little hungover headache, sun comin' up
Got her number, no name, can't remember what it was
If you can't find your wallet or your phone or your truck
Must have done it good, talkin' real good
Yeah you're hurtin' now, draggin' 'round, movin' slow
But at least you got the stories and pizza on the stove
Left over and only to eight hours to go
'Til it's back on, tyin' one off

[Chorus]

Everybody's workin' out, doing twelve ounce curls
Boys buzzin', hung up on the country girls
Fishin' for the line that'll kick her heart into gear
Hey brother, need another over here
Got the Kid Rock good time playlist on
All the worries in the world, they 'bout to be gone

Some drunk dude's in the crowd yelling
"Let's get weird, y'all"
Brought to you by beer
Yeah, I think I'm gonna need another one

Everybody's workin' out, doing twelve ounce curls
Boys buzzin', hung up on the country girls
Fishin' for the line that'll kick her heart into gear
Hey brother, need another over here
Got the Kid Rock good time playlist on
All the worries in the world, well, they gone
Some drunk dude's in the crowd yelling
"Let's get weird, y'all"
Brought to you by beer

[Bridge]
It's all brought to you by beer
Yes it's all brought to you by beer
Oh this right here, y'all
It's all brought to you by beer

It'll get your head hurtin' in the mornin' light
It'll get you hungover, it'll get you back right
Hell, you might even have yourself a chance tonight

[Outro]
That's right
Well, with a little help of course
Aw yeah
