

Fighting for Air (feat. Vincent Frank)

Far East Movement & Vincent Frank

Air, air
Air, air
Air, air
Air, air I never let love in, I left it on the dresser
I never let love leave an impression
But like a fingerprint now I found you at my fingertips
And I just wanna text you every second You're always on my mind like reflections on my shades
I gotta look away 'cause I could stare at you for days
I can give you every millisecond every day
(You, you)
You can buy the time that I can give away
I'm not gonna lie, I want your body
But I know there's more than just your body
I don't want you with just somebody
I'ma let you know I need to sit down, girl
'Cause I can't breathe
You take my breath away from me Ooh girl, can't you see
What you've done to me
You take my breath away from me You got me, got me fighting for air, air
You got me, got me fighting for air, air Yeah, yeah, yeah
My life isn't measured by the breath's I take
But the moments with you that take my breath away
I don't need you in heels but I need your head over
Come a little closer, rest your head up on my shoulder
Now you got me smiling, blown cover
Face with them cupcakes, no butter
They say love is blind but you're so fine
If I keep you in my life I'd never close my eyes I'm not gonna lie, I want your body
But I know there's more than just your body
I don't want you with just somebody
I'ma let you know I need to sit down, girl
'Cause I can't breathe
You take my breathe away from me Ooh girl, can't you see
What you've done to me
You take my breath away from me You got me, got me fighting for air, air
You got me, got me fighting for air, air Hold up, lemme take a breath
Suffocating, is there any time left for love?
Lemme take a breath
Suffocating, is there any time left? I need to sit down, girl
'Cause I can't breathe
You take my breath away from me Ooh girl, can't you see
What you've done to me

You take my breath away from me You got me, got me fighting for air, air

You got me, got me fighting for air, air

You got me, got me fighting for air, air

You, you, you, got me, got me fighting for air, air SONGWRITERS
