

All of the Night (feat. Rico Love)

Kelly Rowland

Turn the lights on
In the middle of the bedroom
The kitchen or the hall way
Just give me a lot of leg room
And a little bit of foreplay
It ain't gotta be the night time
Just tell me when you feel it
Cause it's always the right time
For love...

Some times you got to do it, do it, do it
Don't talk too much just kiss touch me boy

Do it, do it,
All day like the radio
So turn me up

Keep me pumping
Like I'm your favorite song
It ain't nothing wrong
Make love, sweet love
With only nothing

Baby just turn the music on
And I'll be your favorite song One and one we're having some fun
In the bedroom all day and all the night

Turn the lights on
It's going down like a basement
I love it when the beat drop
I'm sick of being patient
I'm screaming when the beat stops
Did you wanna do it all alone
Just catch it when I through it
I'm giving you my all love
You sexy and you know it
You got to do it, do it, do it
Don't talk too much just kiss and touch me boy

Do it, do it,
All day like the radio So turn me up
Keep me pumping
Like I'm your favorite song
It ain't nothing wrong
Make love, sweet love
With only nothing
Baby just turn the music on
And I'll be your favorite song

One and one we're having some fun
In the bedroom all day and all the night[Rico Love:]
I don't need to impose
But what's the clothes for
This is the bedroom
And that's the closed door
I ain't trying to flex
But I'll be so yours
You'll be my lioness
And we can go wroarr
No I'm just playing ma'
First class D you interested to stay by?
You interested to stay by
Only one go round
You need one more round
Left hand full of hair
Your cheek in my right palm
The type of sheet you can put your life on
Love at the door with the lights on
Even if they are you can still feel the pythonSo turn me up
Keep me pumping
Like I'm your favorite song
It ain't nothing wrong
Make love, sweet love
With only nothing
Baby just turn the music on
And I'll be up in your songSo turn me up
Keep me pumping
Like I'm your favorite song
It ain't nothing wrong
Make love, sweet love
With only nothing
Baby just turn the music on
And I'll be your favorite songOne and one we're having some fun
In the bedroom all day and all the night
One and one we're having some fun
In the bedroom all day and all the night
Turn the lights on
