

# Darkest Days (feat. John Rich)

## Black Label Society

Divided soul of a troubled man  
The final fight  
The final need to understand These tangled roots  
Ripped from the ground  
Abandonment and worry  
Forever to be found Rain, rain, rain  
Take this hand of sorrow  
Take away my darkest days Rain, rain, rain  
Take away my darkest days  
Return me for I feel they're here to say  
For just one moment of peace  
I long to know  
I can see the storm clouds  
Calling me back home The blood of the hurricane  
Where the water is never still  
Life is a loaded gun  
Love is a bullet that sometimes kills Rain, rain, rain  
Take this hand of sorrow  
Take away my darkest days Rain, rain, rain  
Take away my darkest days  
Return me for I feel they're here to say  
Take it all away  
Rain, rain, rain  
Take this hand of sorrow  
Take away my darkest days Rain, rain, rain  
Take away my darkest days  
Return me for I feel they're here to say
