

River

Lea Rue

[Intro]

Come and live down in the river with me

Come a little closer to my lips

Later at night we're talking dreams

Blow me a kiss like a pebble on the water, water, water

[Verse 1]

I've been watching you from behind the mirror

Looking right down on me, looking right at me

You can't see me yet, through the ripples you made

Looking right down on me, looking lost on me

[Pre-Chorus]

While you're lying down by the riverside

You can tell me all, I'm oblivion

[Chorus]

Don't go back from a wild heart to a tamed life

Stay here with me

Don't go back hiding secrets like it's a weakness

Stay here with me

[Post-Chorus]

Come and live down in the river with me

Come a little closer to my lips

Later at night we're talking dreams

Blow me a kiss like a pebble on the water, water

Water, water

[Verse 2]

You're thoughts are broken, sprinkled all over me

Looking right down on me, looking right at me

In the night, they shine like splinters of glass

Looking right down on me, looking lost on me

[Pre-Chorus]

I'm the other girl, at the right time

You can tell me all, I'm oblivion

[Chorus]

Don't go back from a wild heart to a tamed life

Stay here with me

Don't go back hiding secrets like it's a weakness

Stay here with me

Come into the deep with me

Come and live down in the river with me

Come a little closer to my lips

Later at night we're talking dreams

Blow me a kiss like a pebble on the water

Come and live down in the river with me

Come a little closer to my lips

Look into eyes and trust in me

Blow me a kiss like a pebble on the water

[Outro]

Stay here with me

Stay here with me

Water, water, water
