

Fight for Love

Disciple

The body's failing and my heart is breaking
Hell is awakened, the souls it's taking
We're taking back where they belong
You can not make us stop, you'll never make us stop
It's not about the songs it's about our God

Who will stand and rise against injustice
Take up the cause of the
Unwanted ones
Who will stand to fight against it
We live, we fight, we live we die we fight for love
We live (we live), we fight (we fight), we live we die we fight for love
We live (we live), we fight (we fight), we live we die we fight for love

Church windows breaking
From people
Living outside the walls
The bride must be ready
For Jesus' imminent return

Who will stand and rise against injustice
Take up the cause of the
Unwanted ones
Who will stand to fight against it
We live, we fight, we live we die we fight for love
We live (we live), we fight (we fight), we live we die we fight for love
We live (we live), we fight (we fight), we live we die we fight for love

We live, we fight, we live we die we fight for love
We live, we fight, we live we die we fight for love
We live (we live), we fight (we fight), we live we die we fight for love
We live (we live), we fight (we fight), we live we die we fight for love
