

We Keep on Running

What So Not & Toto

[Verse]

Tonight's the night we leave this all behind
Stuck in the same old place, in the same old state of mind
Before our luck runs out, let's get out while we can
We're turning in circles, we're back where we began

[Chorus 1]

Tonight, tonight, whoo
We keep on running on next to nothing
Tonight, tonight, whoo
We keep on running on next to nothing

[Verse]

Tonight's the night we leave this all behind
Stuck in the same old place, in the same old state of mind
Before our luck runs out, let's get out while we can
We're turning in circles, we're back where we began

[Chorus 2]

Don't leave me hanging tonight, tonight, whoo
We keep on running on next to nothing
Tonight, tonight, whoo
We keep on running on next to nothing, whoa

[Chorus 3]

Tonight, tonight, whoo
We keep on running on next to nothing
We keep on running, we keep on running
Tonight, tonight, whoo
We keep on running, we keep on running
We keep on running on next to nothing
Tonight, tonight, whoo
We keep on running on next to nothing
Tonight, tonight, tonight, tonight, whoo
We keep on running on next to nothing

[Outro]

We keep on running on next to nothing
We keep on running on next to nothing
