

Steady Soul (feat. Emmi)

King Henry

[Verse 1]

When I hold you my fists turned white

But I can't do love

Clinging for life

'Cause it's hell and it's paradise

But never at once

The two don't collide

[Pre-Chorus]

I think you're like the feeling of the rollercoaster

The feeling of falling to the sky

Don't need that heart, this heart is tired

I'm giving back yours to get to right

[Chorus]

If you like them highs and lows

Oh you a running road

I need me a steady soul

Oh steady as she goes

If you like them highs and lows

Oh you a running road

I need me a steady soul

Steady as she goes

[Verse 2]

They say safe is a dirty word

And maybe that's true

But safe would be new

And I long for the regular

The tunnels straight love

That don't leave you bruised

[Pre-Chorus]

I think you're like the feeling of the rollercoaster

The feeling of falling to the sky

Don't need that heart, this heart is tired

I'm giving back yours to get to right

[Chorus]

If you like them highs and lows

Oh you a running road

I need me a steady soul

Oh steady as she goes

If you like them highs and lows

Oh you a running road

I need me a steady soul

Steady as she goes

[Outro]

I long for a Sunday, a Sunday love

I long for a Sunday, kinda Sunday love and

I long for a Sunday, a Sunday love

All I want you for is your Sunday love
