Be Fine

[Madeon](#)

Today the world is gonna me do right
The sun is rising in my head
Until I just cannot believe my eyesAnd you tell me it's another phase
Does it matter if it's real or not?
I don't think I'll ever have enough
Make it so the fire doesn't stop
Are you listening to me?Don't tell me that I might
I will be fine again
Tell me that I might
I will be fine again
Tell me that I might
I will be fine
Let my body do me right
I said
I will be fine
Can I make this my home?
I'm still coming into my own
You can't keep falling into my arms
You can't keep falling into my arms
But what is there is all that I knew
When it's time to do what I do
It's all I need from you
Say are you listening for me?Don't tell me that I might
I will be fine again
Tell me that I might
I will be fine again
Tell me that I might
I will be fine
Let my body do me right
I said
I will be fine
Don't let me down
I'm up again
I'll keep it around
Another day
If I fall to the ground
I'll come again
I'll stay I awake for a life time
Awake for a life timeI will be fine
