

# Beast Mode

## Snow Tha Product

No snooze I'm about to wake 'em up  
Cause they say they married to the game, well I'm about to break em up  
Cause I got that loud BANG, hit 'em in the brain  
I'm running up in this bitch like BAM  
The rap game will never be the same  
There's a lil chick killin' every man  
I'm in muthafuckin' beastmode, she's cold, Snow's got bars to spare  
Ya'll bitches been sleep though we woke  
I'm in Cali I'm a put it in the air  
And Imma run up cause I never been scared  
Little mami with a heart of a California Bear  
Imma come through murderin' bitches  
I know you heard that I'm spittin' a little better, everybody is scared  
They call me Snow, I know that I'm a beauty and a beast  
I got the coast, you know I'm the best, everybody finna see  
I put on for mine, from the west to the east  
Down south no doubt they done heard about me  
I'm a latin chick spittin out here making a killin as a lyrical villan, I R-I-P beats  
I was gone, but I'm back, like ooh, Miss Snow Tha Product wrecks  
You can check my stats, I don't lose  
If you thought I was done, not yet  
Oh shit! I bet little chicks upset that I get my bread and I get respect  
And they mad that I been the best no less the west gon get  
This chick here wrecks
