

Famous

Gloria Estefan

Famous What in this world
Feel so alive
Makes us then breaks us
Then helps us survive
Buries our hopes then revives our desire to succeed
Or our greed Who in this World
Sees when i cry
Throws me then shows me
That i'm justified
Measure my worth then decide that i'm not what
they need
They've agreed
Where in this world can i hide
where can i find
Someone that sees me inside
To confide How in this world
Can i go on
Wondering if you'll think of me when i'm gone
Shielding my eyes from the pitiless light of the glare
Should you care When in this world
is it enough
i never thought it could be quite this rough
Living my life as if millions of people don't stare
they're not there
Why should i have to defend or deride
Most of the rules of the game
i've defied
Though it's been hard on my pride
It's been one hell of a ride
Curiously
I didn't set out to be
Famous
