

On the Road

Petit Biscuit

[Verse 1]

Going on too far
As you won't forget
Run away so hard
Try again and again
Try again and again
Because

[Chorus]

I'm on the road
I'm on the road
I'm on the road
I'm on the road
I'm on the road
I'm on the road
I'm on the road
I'm on the road

[Verse 2]

For a world you know
For a world you know
For a world you know
For a world you know
Wanna be focused on the night
To capture something special
Let's focus on the road
To bring you into somewhere beautiful
Somewhere beautiful
To bring you into somewhere beautiful

[Chorus]

I'm on the road
I'm on the road

[Outro]

We see a million lines in the sky
And we feel the heat of the planet
We lay down for the night
When we come find the sun
