

Hi Scandinavia! (Radio Edit)

Matisse & Sadko

We've only got one life
And I'm not, sleeping tonight
The truth is out there
You just gotta find it
So reach out
Baby hold my hand
Where we go is up to you
You can try
But don't try to understand
Just let it go
Cause we're not alone
I never had it so good, so good
We're not alone
So what you waiting for
We're not alone
We're not alone
We're not alone
We've only got one life
And I'm not sleeping tonight
The truth is out there
You just gotta find it
So reach out
Baby hold my hand

Where we go is up to you

You can try

But don't try to understand

Just let it go

Cause we're not alone

I never had it so good, so good

We're not alone

So what you waiting for

We're not alone

Cause we're not alone

I never had it so good, so good

We're not alone

So what you waiting for

We're not alone

We're not alone

We're not alone

We're not alone, anymore
