

# Back to the Future

## Stereo Skyline

I went back to the future just to see what we could be.  
Hopped in my car and drove around the galaxy  
It turns out I tripped and fell under your spell  
well maybe it's chemistry Hey what's up today let's press rewind hop in my time machine  
'Cause I'm getting kinda dizzy with all I'm spinning around  
let's go back to the future now Picked up my phone to see if you were texting me  
You said get out of bed let's take a ride  
Inside my time machine and I said..  
Hey what's up today let's press rewind hop in my time machine  
Because I'm getting kinda dizzy with all I'm spinning around  
let's go back to the future now Hey what's up today let's press rewind hop in my time machine  
Because I'm getting kinda dizzy with all I'm spinning around  
let's go back to the future now  
Hey what's up today  
what's up today [repeat] It's been a minute now without you  
Wasting my time thinking about you  
'Cause time flies but so do I come on inside and  
take a ride back in time  
Hey what's up today let's press rewind hop in my time machine  
'Cause I'm getting kinda dizzy with all I'm spinning around  
let's go back to the future now Hey what's up today let's press rewind hop in my time machine  
'Cause I'm getting kinda dizzy with all I'm spinning around  
let's go back to the future now
