

House Arrest

Sofi Tukker & Gorgon City

This is house arrest
La da di da di da daI learned how to measure before I knew what was size
I sang you to sleep, do you like my lullaby?
La luna de leche, treat your sadness with a smile
You can't have what's next till you hang with it for a whileThis is house arrest
Come but wear your Sunday best
This is house arrest
La da di da di da da
I learned how to measure before I knew what was size
I sang you to sleep, do you like my lullaby?
La luna de leche, treat your sadness with a smile
You can't have what's next till you hang with it for a whileThis is house arrest
Come but wear your Sunday best
This is house arrest
La da di da di da daThis is house arrestThis is house arrest
Come but wear your Sunday best
This is house arrest
La da di da di da daI decided not to leave my house and go outside
I held myself sweetly, made myself a lullaby
This won't last forever, treat your sadness with a smile
We can't have what's next till we hang inside for a while
This is house arrest
Come but wear your Sunday best
This is house arrest
La da di da di da daThis is house arrest
This is house arrest
This is house arrest
