

# Old Friends (feat. Blonde Maze)

## Half an Orange

[Verse 1]

I live seventeen floors up and when it rains

I can feel those drops hit my window pane

Let's me know that I'm still here

When the sun comes out I will go outside

When it breaks through clouds I will give a smile

Let's me know that I'm still here

[Pre-Chorus]

Sometimes I want to run away, run away

To find good times again

To find all my old friends

[Chorus]

Good times, I said good times

Find my friends again

I said I wanna have good times, good, good times

Find my friends again

Good times, I said good times

Find my friends again

I said I wanna have good times, good, good times

Find my friends again

[Verse 2]

I live seventeen floors up and when I cry

I can see the city through my watered eyes

Let's me know that I'm still here

When my eyes clear up I will go outside

I'll imagine you're still by my side

Let's me know that I'm still here

[Pre-Chorus]

Sometimes I want to run away, run away

To find good times again

To find all my old friends

Run away, run away

To the nearest place, where I'll find all my old friends

[Chorus]

Good times, I said good times

Find my friends again

I said I wanna have good times, good, good times

Find my friends again

Good times, I said good times

Find my friends again

I said I wanna have good times, good, good times

Find my friends again

[Outro]

Good times, I said good times

Find my friends again

I said I wanna have good times, good, good times

Find my friends again

Good times, I said good times

Find my friends again

I said I wanna have good times, good, good times

Find my friends again
