

One of Your Nights

Aaron Watson

I've had one of those days
Good for nothin kinda days
I've had hard luck, bad luck, and no luck at all
Girl I need you to be
My soft place to fall So lay your pretty head on my side of the bed
I turn it on and on when I turn off those bedroom lights
Say you want me to stay
Kiss my worries away, far away
I've had one of those days
Good for nothin, kinda days
Baby, I need one of your nights
I long to hold you tight
Fine wine and candle light
I've had red lights, bar fights, bright lights blinding me
Girl I need your touch to set me free So lay your pretty head on my side of the bed
I turn it on and on when I turn off those bedroom lights
Say you want me to stay
Kiss my worries away, far away
I've had one of those days
Good for nothin kinda days
Baby I need one of your nights Girl we got that kinda romance
The one that will dance without even touchin the ground
Remember that night on your street
I said Id sweep you off your feet
Well forever is forever and I'm never gon' let you down
Never ever gon' let you down
So lay your pretty head on my side of the bed
I turn it on and on when I turn off those bedroom lights
Say you want me to stay
Kiss my worries away, far away
I've had one of those days
Good for nothin kinda days
Baby I need one of your nights One of your nights
I've had one of those days
Good for nothin kinda days
